

Gratitude Paper Chain

A handmade creation can really show your appreciation for someone. 📌

Here is what Arco did to make a paper chain for his teacher, Ms. Bridge:

Arco and his mom cut paper strips.

Arco told his mom what to write on the white strips.

Then Arco decorated them.

Arco made the white strips into loops and held the loops together with tape.

Mom helped him decide how to arrange the white loops. Then they worked together to attach them with colored loops.

They had to pay attention to make sure everything came out right side up.

Gratitude Paper Chain

They hung the chain on a wall and took a picture to send to Ms. Bridge.

Finally, they hung the chain in the living room window because Arco wants everyone to know how he feels about Ms. Bridge.
